

# *Love is like Water*

Water is the most important substance for life:

Sometimes it doesn't always come at the right time - like rain during a picnic  
And sometimes it doesn't always appear in the right form - like ice on the sidewalk  
Sometimes it obscures your vision - like fog on the highway  
And sometimes it keeps you up at night - like thunderstorms after dark

But try living without it...

Love is a lot like water:

Sometimes it doesn't always come at the right time  
And sometimes it doesn't always appear in the right form  
Sometimes it obscures your vision  
And sometimes it keeps you up at night

But try living without it...
